

Bedirhan Yıldırım

Seasoned software engineering with emphasis on frontend web development. Fast learner, problem solver, team player.

Experiences

Software Engineer • Epam Systems Jun 2022 - May 2023

- Collaborated with one of the world's largest asset management companies to achieve project goals.
- Played a key role in enhancing the client's B2C onboarding application by leveraging Angular.
- Significantly contributed to the development of the client's mock server using Node.js and Express.

Software Engineer • Wash Out Jul 2021 - Jan 2022

- Successfully redesigned the B2C web application utilising Vue.js, enhancing its user interface and user experience.
- Implemented new components into the custom-coded dashboard using Vue.js, improving its functionality and visual appeal.
- Made valuable contributions to the development of the B2B application by leveraging React, ensuring its seamless performance and usability.

Digital Solution Specialist • Ariston Group Oct 2020 - Jul 2021

- Assumed responsibility for overseeing lead management and renovation process monitoring web and mobile applications specifically designed for the Switzerland market.
- Managed the loyalty programs' web and mobile applications catering to users in France and Spain.
- Developed a REST API utilising Node.js to gather comprehensive data, including meta data and statistics, from both the Google Play Store and App Store Connect for mobile applications.
- Created a dynamic dashboard utilising React to effectively visualise and present the collected data from mobile applications.
- Played a key role in enhancing the UI and UX of the web and mobile applications, resulting in an improved user experience.
- Provided complete technical support and ensured seamless operation of mobile applications on both Google Play Console and Apple Store Connect.

Software Engineer • Turkish Airlines Jul 2018 - Jul 2019

- Resigned the B2C platform of Turkish Airlines thy.com by leveraging the power of Vue.js, enhancing its functionality, aesthetics, and user experience.
